E Aeroquip

ET1000 - Aeroquip Performance Products

Portable, Light Duty, Positive Stop Crimp Machine Innovation Sheet

Eaton is proud to add the ET1000 crimp machine to its line of portable crimp machines. While being our most economical crimp machine to-date, the new Performance ET1000 machine boasts a broad crimp capability with an ease-of-use that is sure to please hose assemblers.

This new crimp machine has been approved to crimp:

- Aeroquip AQP Racing & StartLite hose in sizes –4 through –16, straight through 120° swivel. The StartLite hose is also qualified in –20 swivel.
- Aeroquip Teflon Racing hose in –3, -4 and -6 sizes, straight through 90°.

The new ET1000 crimp machine builds on the success of Eaton portable crimp machines by using a 2-piece split half collet assembly in lieu of traditional one-piece die cages. The correct hose assembly crimp diameter is obtained by the use of a spacer ring that controls the stroke length of the cylinder during the crimping operation.

This new crimp machine may be ordered separately or with one of four power supplies: hand-pump, air/hydraulic pump, 12-volt DC power unit, or a 110-volt AC power unit (see Ordering Instructions on the reverse side).

Features

- Pusher slides out of position.
- Compatible with the Aeroquip Performance Product hose & fitting line.
- Can be mounted on service vehicles due to its portable design.
- Can be powered with virtually any 10,000 psi hydraulic power source.
- Utilizes 2-piece collet assemblies.
- Spacer rings control the crimp diameter.

Benefits

- Sliding pusher allows for easier fitting insertion into the machine.
- Simple positive-stop crimp diameter control system for consistent crimping time after time with no operator adjustments required.
- Easily transported between job sites.
- Versatile power source options.
- Electricity is required only when using an electric style pump.

SPECIFICATIONS

Dimensions	22" high, 16" wide, 14" in depth
Weight	70 lbs. (without pump)

ET1000 CRIMP MACHINE PART NUMBERS

ET1000-001	00-001 No pump, no tooling (basic machine only)			
ET1000-002	Hand-pump, no tooling			
ET1000-003	Air-hydraulic pump, no tooling			
ET1000-004	110 volt 1/2HP electric pump, no tooling			
ET1000-005	12 V DC pump, no tooling			

^{*} All part numbers above include the base crimp machine.

ET1000 CRIMP MACHINE PACKAGE PART NUMBERS

These machine packaged part numbers offer a variety of pumps with the same tooling package including all collets and spacer rings to crimp:

- AQP Racing & StartLite Hoses (sizes -4 thru -16), straight through 120° swivel fittings.
- AQP StartLite has been qualified up to -20, straight through 120° swivel fittings.
- Aeroquip Teflon Racing Hoses (sizes -3, -4 and -6), straight fitting.

ET1000-011	No pump, but includes complete Collet and Spacer Ring Tooling package described above.
ET1000-012	2-Stage Hand pump, and complete Collet and Spacer Ring Tooling package described above.
ET1000-013	Air/Hydraulic pump, and complete Collet and Spacer Ring Tooling package described above.
ET1000-014	110 Volt Electric pump, and complete Collet and Spacer Ring Tooling package described above.
ET1000-015	12 Volt DC pump, and complete Collet and Spacer Ring Tooling package described above.
