

# FLOCS™

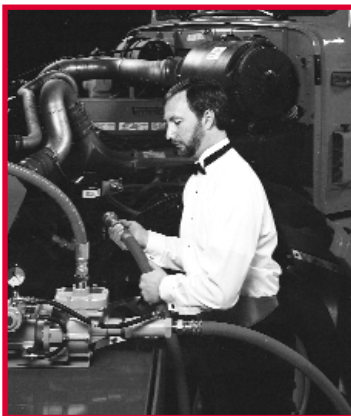

(Fast Lube Oil Change System)

Fleet Fluid Evacuation Analysis

***SAFE***

***FAST***

***ANYWHERE***

 **Aeroquip**

4. The average amount of time saved per oil change with the Aeroquip FLOCS system is:

Class 8	20 minutes
Class 6/7	14 minutes
Class 3/5	5 minutes

**Calculate Your Savings with FLOCS:**

$$\frac{\text{labor hourly amount (See \#3)}}{60 \text{ minutes/hour}} = \text{cost/minute}$$

$$\text{cost per minute} \times \frac{\text{total minutes saved (See \#4)}}{60} = \$ \text{ saved/change/occurrence}$$

$$\frac{\text{average \# of changes (See \#2)}}{1} \times \frac{\text{total units (See \#1)}}{1} = \text{total fleet changes/year}$$

$$\text{total fleet changes} \times \$ \text{ saved/change/occurrence} = \text{TOTAL \$ SAVED/YEAR}$$
