

AEROQUIP INNOVATIONS

ProCrimp™ 1380P PORTABLE CRIMP MACHINE

Perfect for maintenance and repair of all your hose needs and designed to be used in remote or portable stations. The new ProCrimp 1380P will handle through -20 SAE100R12 hose and fittings. All die cages, crimp diameters and approved hose and fitting combinations are identical to Aeroquip's popular FT1380 crimper. Crimp diameters are controlled using a micrometer and specially designed hydraulic circuit that allows for precise and adjustable finished crimp diameters.

The new ProCrimp 1380P may be ordered separately or with your choice of three power options, including a new high volume hand pump, an air/hydraulic power unit or a 12-volt DC power unit.
